EXPERIENCE

Freelancing Work

Indowel *(A Hardware Agency)*

August 2025 – September 2025   Link

- Developed a responsive website using React Js, Vite, Tailwind CSS, and Framer Motion, ensuring smooth animations and a consistent performance across all devices.
- Built a dynamic, SEO-optimized product catalog that allows effortless product updates without code changes.
- Implemented a validated contact form with EmailJS integration and reusable components, improving user trust, communication flow, and site maintainability.

Vasu Interio **(Complete Interior Solutions)**

March 2025 – August 2025   Link

- Developed a comprehensive interior design website using React 19, Typescript, and Vite, featuring modern UI/UX with Tailwind CSS and responsive design across all devices.
- Implemented advanced product filtering and search functionality with real-time suggestions, category-based navigation and dynamic sorting options for enhanced user experience.
- Integrated EmailJs for seamless contact form functionality and customer inquiries, enabling direct client communication without backend infrastructure.

Realtime Chat Application   Link

- Built a secure, self-destructing chat platform using Next.js 16 with App Router, featuring automatic room expiration (20-minute TTL) and complete data purging for privacy-focused communication.
- Implemented real-time bidirectional messaging with WebSocket integration using custom realtime client, enabling instant message delivery and live room destruction notifications.
- Architected scalable backend API with Elysia.js framework, featuring RESTful endpoints for room management, message handling, and TTL-based auto-cleanup with Redis integration.
