EXPERIENCE

Freelancing Work

Indowel (A Hardware Agency)

Aug 2025 – Sept 2025   Link

- Developed a responsive website using React, Tailwind CSS, Framer Motion, ensuring smooth animations and a consistent performance across all devices.
- Built a dynamic, SEO-optimized product catalog that allows effortless product updates without code changes.
- Implemented a validated contact form with EmailJS integration and reusable components, improving user trust, communication flow, and site maintainability.

Vasu Interio (Complete Interior Solutions)

Mar 2025 – Aug 2025   Link

- Developed a comprehensive interior design website using React 19, Typescript, featuring modern UI/UX with Tailwind CSS and responsive design across all devices.
- Implemented advanced product filtering and search functionality with real-time suggestions, category-based navigation and dynamic sorting options for enhanced user experience.
- Integrated EmailJs for seamless contact form functionality and customer inquiries, enabling direct client communication without backend infrastructure.

Dashmesh Agriculture (Agriculture Equipments)

Nov 2025 – Dec 2025   Link

- Developed a complete responsive website using React 19, Typescript, featuring product showcases, testimonials and contact functionality.
- Created a polished user experience with Framer Motion animations, smooth transitions and an interactive product carousel – delivering a professional, engaging interface across all devices.
- Implemented EmailJs for contact form submissions and optimized performance using Vite for fast builds and loading times, ensuring quick and seamless user interactions.
